Availability: 4pm - 6pm

Fullstack developer

with experience in UI Developer

“ With over 6 years of professional experience as UI & Front Developer, I have solid skills in HTML5 markup, CSS3, responsive web & semantic web analysis. In my last position I covered processes of front-end with Javascript using React and back-end in Node JS, focused on REST API with Express and MongoDB.

You will find me to be a curious, with a focus on continuous learning and keeping up-to-date on new technologies.

”

Skills

Principal Stack

Mongo, Express, ReactJS, NodeJS
